

Why Is DURASKIRT™

The Best
Skirting Choice?

-See Back-

- Clean Look
- Hidden-Vent
- Real Concrete

www.DURASKIRT.com

PROVEN

DURASKIRT™ has proven itself for almost two decades. The reasons we began its production remain the same. People need a well-built long-lasting defense barrier against weather, rodents and horticulture beds, while contractors desire quick and accurate all weather installation.

Clean Look

Most people buying manufactured homes today want their home to look site-built.

DURASKIRT™ gives you the popular clean look of a high-end home. Your friends will never know you live in a manufactured home.

DURASKIRT™ eliminates the unsightly foundation vents by utilizing the "Hidden-Vent". This is the most seamless look on the market today!

DURASKIRT™ Warranty
Completes Your Asset
Protection.

Roofing Has Warranty

Siding Has Warranty

DURASKIRT™ Has Warranty

Real Concrete - A Proprietary High-Strength Blend
- Protects Against Back-Fill, Rot & More!

The Air Space Solution

We commonly find, when replacing other skirting types, that the home is rotting at the contact point of the skirting. After investigating we found that moisture is being trapped. Trapped moisture is always detrimental.

The Solution: DURASKIRT™ is designed to leave an air-space between the top of the panel and bottom of the home. This feature prevents rot. This is very important for the longevity of your manufactured home.

HIDDEN-VENT

- Continuous Air-Flow (No Dead Air Between Vents).
- Unsurpassed Rodent Guard and Deters Large Animals.
- No Vent Wells Needed.
- Prevents Lawn Sprinklers From Soaking Crawlspace Through Vents.

The only skirting brand engineered for back-filling. Some states require skirting to be engineered for back-fill support. In these states block skirting must be filled & reinforced. This makes DURASKIRT™ the more affordable concrete skirting solution.

Qualifies for VA, FHA and all other loan requirements.
